

ALBA VEGA CALZADO

Full-Stack Developer | Frontend Specialization in Angular

avegac14@gmail.com | +34 671 851 719 | <https://www.linkedin.com/in/alba-vega-calzado> | Cáceres, Spain

PROFESSIONAL SUMMARY

Full-Stack Developer with **5+ years of experience**, specializing in frontend development with **Angular, TypeScript, JavaScript, HTML** and **CSS**, alongside professional backend experience with **Java** and **Spring Boot**. Experienced in the **development and evolution of enterprise applications** in international environments, including building applications and reusable components, technology migrations and upgrades, backend maintenance and incident resolution.

Experienced in **Agile** environments, **CI/CD, Jenkins, OpenShift** and **Docker**, as well as code quality and security tools such as **SonarQube** and **Fortify**. Regular use of AI-assisted development tools including **GitHub Copilot** and **Claude Code**. **Cambridge C1 English certification**, with English used daily in a professional environment.

WORK EXPERIENCE

Full-Stack Developer | Viewnext (Sep 2021 - Present)

International Banking Project

Development and maintenance of internal enterprise applications for an international banking organization, collaborating with teams across Spain and the UK in an Agile environment.

- Frontend development with **Angular, AngularJS, TypeScript** and **JavaScript**, including building a new Angular application from scratch, developing reusable components and features, and integrating Angular applications within a **microfrontend architecture**.
- Contributed to **technology migrations and upgrades**, including migrations between **Angular versions**, the upgrade to **Java 21**, and the adaptation of repositories and pipelines to new corporate development and CI/CD platforms.
- Maintenance and evolution of existing backend applications with **Java, Spring** and **Spring Boot**, mainly involving incident resolution, modifications to existing code, and integration and consumption of **REST APIs**.
- Monitoring and troubleshooting **CI/CD and deployment** processes with **Jenkins** and **OpenShift**, including log analysis, incident resolution and adjustments to pipelines, **Dockerfiles** and **Nginx configurations**.
- Worked with **SonarQube** and **Fortify** for code quality and security, and used **JUnit, Mockito, Jasmine** and **Karma** for testing. Provided support with frontend coordination and guidance to other developers.

Mobile Applications Project – Energy Sector

Frontend development of mobile applications for bill management and payments within a small Agile team.

- Frontend development and maintenance using **Cordova, HTML** and **CSS**, working with **Android Studio**.
- End-to-end frontend design and development of a payment platform, working autonomously from the existing application's visual references without predefined designs.

TECHNICAL SKILLS

Frontend: Angular · AngularJS · TypeScript · JavaScript · RxJS · HTML5 · CSS · SCSS · PrimeNG · Angular Material · Bootstrap · Tailwind CSS · React · jQuery · Cordova

Backend: Java · Spring · Spring Boot · REST APIs · C# · Python

Databases: SQL · PostgreSQL · MySQL · Oracle · SQLite · Supabase

DevOps & CI/CD: Git · GitHub · GitLab · GitHub Actions · Jenkins · OpenShift · Docker · Maven · JFrog · Nginx · Apache Tomcat · Vercel

Quality & Testing: SonarQube · Fortify · JUnit · Mockito · Jasmine · Karma

Tools: Jira · Confluence · Postman · Bruno · Figma · Android Studio · Visual Studio Code · Eclipse · Spring Tool Suite (STS) · Vite · npm · Unity · Node.js

AI-Assisted Development: GitHub Copilot · Claude Code · Windsurf · Devin

EDUCATION

Higher Technician in Multiplatform Application Development (DAM) - IES Valle del Jerte (2018-2020)

Java Developer for Android - CEPI-BASE S.L. (2018)

CERTIFICATIONS

Lean IT Foundation - APMG International (2026)

LANGUAGES

Spanish (Native) | English C1 (Cambridge) | French (Beginner) | Valencian (Beginner)
